## OUR HORSES - A CUT ABOVE THE REST

All of our horses have been selected and trained to be of the highest quality anywhere. Novices and Experts alike rave about their sensitivity, training, and gentleness. Having some of the best horses around is no small task and it starts with our philosophy; all horses without exception are to be treated with love, trust, and respect.

Everything we do from bit-less bridles to lighter saddles is for the horses comfort and benefit. We do not kick or manhandle. All of the horses are forever owned by the Equine Center. We do not lease or sell. In fact many of our wonderful horses have been rescued from unfortunate circumstances. It's sad that good horses end up in bad places and we strongly feel that there is no such thing as a bad horse, only a poorly trained one.

When the mental and physical wellbeing of the horse is placed first, they have a way of returning it. Our mission is promoting the gentle and humane treatment of all animals everywhere.
